Hello, Greg Nichols here. I am owner and Admin of **Creative Wealth Funding & Entertainment**. I notice that many Internet marketers get on a treadmill of doing the same thing over and over that never really makes them more serious money. Who would like regular PayPal commissions of **\$201.75**, as our affiliate marketer? These large ticket products can add up to **\$1000** to **\$2000** a month for you, or even **\$1000** a week, or, **\$300** to **\$400** a day, paid to you at PayPal. This would consist of you working the project like a part-time or full-time job, from home. I am a mentor in a handful of areas. When you buy my products, you at your option can market for me as an affiliate and I pay you at PayPal. Or, you can just use the products and learn how to create wealth in different ways. We are in our 3rd year of business for this firm. (Started 2018) You may get involved with us for **\$100** and earn your way up to the larger one here of **\$269**. Our products and service is mentoring online. We mentor and teach in online projects, success, Internet marketing, sales, investment in precious metals investment, flipping real estate, and working as a financial funder and stock and Crypto investment. You can market this online or offline using fliers or postcards.

We have 2 products, which are:

Real Asset Investment, \$100, Real Asset Investment, pays 70% or \$70 per sale at PayPal and JV Zoo. More marketing mentoring and special mentoring in gold and silver acquisition and real estate buying/investing/flipping. Also, an intro to Crypto-Investing, Stock Ideas, Entertainment Wealth, and much more.

Creative Wealth Funding, \$269.00, Advanced Investing, pays 75% or \$201.75 per sale at PayPal and JV Zoo. This product is tips and ideals and advanced marketing and inner core mentoring with Greg Nichols, plus some crazy good insights in low cost but dynamic investing. Also mentoring in being a funding broker, and writing, literary work, and the entertainment industry. Biblical success and wealth concepts are also shared. More Crypto, Stocks, Entertainment insights are also shared.

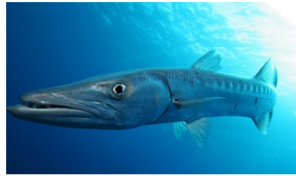

Product 1: Real Asset Investment, American Payday Services - \$100, This level in part is about obtaining gold and silver and precious metals. You won't want to miss this one. We not only show you where to buy the metals at today's prices and what to buy, we also show you how to find scrap gold and silver and save it up to melt it down, and where to safely send it to melt it. You can find gold, which regularly sells at hundreds an ounce, for \$100, or \$400, or \$1000 per ounce. Same with silver. I invest in metals whenever I can, and I show you things, like what you can save now at no or little cost to barter if it ever comes to that. Just using this product will increase your holdings. We pay you 70% or \$70 per sale on this product, this product is 2 in one, Precious Metals and Real Estate helps!

Also included for \$100 is mentoring on real estate investment. I have a 40-year real estate career as a broker and an investor. I show you about flipping and how to locate, buy houses with little cash or no cash, and use other people's money and not even need good credit. This is powerful and we keep adding information to the product on gold and silver and real estate, plus I show you walk-throughs of real live cases of buying properties. You can learn how to earn money or invest here even you if don't resell for us. We are about earning an income at PayPal and building wealth in holdings, and making money on high ticket items. I show you how to be the investor flipper for real estate or the middle man wholesaler. Some wholesalers earn \$20,000 to \$40,000 or more for 10 hours of work. That is not common, but possible, and knowledge is power. You won't make big money instantly, but here is your chance to get under a mentor who knows the industry intimately, and to begin to learn the industry. I can help you with a foundation as this is **"basic helps to understand the real estate and precious metal industry."**

FUNDING

Product 2: See the Barracuda Tank, from Creative Wealth Funding - \$269, Shark Tank on TV is a fun show, but not 100% totally real. No investors would jump up and shake hands and say, “we have a deal” on a first meeting. You can be sure that the investors have seen a Business Plan beforehand. I show you the behind-the-scenes process of funding with business plans and negotiations and help you understand details. This product shows you how to work with me or on your own to understand how to broker the funding of money transactions. No special license is required. We show you how to provide inventors or entrepreneurs money for ventures, using venture capital or angel investors, to fund new businesses, movies, TV shows, green projects, computer technology, or existing businesses. We can also show you how to provide money for various kinds of payments such as lottery winnings. I show you how to keep your ears open so you can be in the right place at the right time and make a huge payday. You don’t need to know the industry in huge detail, you just make an introduction of someone needing funding to someone who invests in such things, and some sources can fund up to \$100 Million dollars. ***With this knowledge, you get paid for introductions.*** It helps you to know the lingo of the industry, and the basics, and that is where I come in, to help you with basic understanding of funding. One source will fund green environment projects up to \$500 million. Just you reselling this mentoring information product for me earns you \$201.75 paid to you at PayPal. Here is the real underlying benefit here. If you find a person who needs funding, and get them funded, you can earn from \$5000 up to a million-dollar fee. I can think big if you can. Eventually, when you have learned much of what I know, you can leave the nest and broker directly yourself, and get the full enchilada. I would be glad to see a pupil do that. You can mentor and learn the industry from me and make PayPal money in the meantime and double dip as a broker for further income.

Also in the \$269 Product: Creative Wealth Funding - Advanced Investing and Advanced Marketing, here is how to work closer with Greg in the pulling in of mega PayPal commissions, and how to invest

the **\$201.75** PayPal commissions, in part, or all of them in vital fast growing low-cost stocks and high yield investments. We don't broker investments, we merely pass on insights and information to motivate you to build wealth and show you things we are doing and we get you in touch with experts who search out the best choices to invest day in and day out.
