Hello,

Greg Nichols here, Christian minister, author, investor, real estate broker and Internet marketer. I mentor people online in marketing and about financial issues and debt and investing from a Biblical point of view. Many economists have predicted a looming collapse this year, (2016) including Robert Kiyosaki, author of **Rich Dad Poor Dad**.

See his comments on a brief video here: <https://youtu.be/D1QDdrkFCzc> - We all pray that he is wrong. But it is prudent to be "prudent" about the future.

I mentor in precious metals, Internet marketing, and flipping houses without cash or credit. I also am a funding broker and train people to do that too. I have created a set of products that can show you how and where to pick up scrap gold and silver for cheap, and how to invest in precious metal coins, bars and rounds.

My product have the precious metals helps and the real estate investing, buying and flipping helps, both. You can buy my products for a very affordable price, and then resell them and get your money back and earn with me routinely from now on and use the earnings to acquire silver and gold. **There is more on real estate flipping, and obtaining silver and gold later in this report.**

We have a product sale, read to the end!

Once you have 2 people, you are in profit!

That is because we pay you 65% of each sale!

Now for details on **American Payday Services**. (APS) I have been a businessman for over 35 years. Since the mid 1990's, I have marketed products online and offline, and learned quite a bit. I have boiled down a system to basic nuts and bolts for people to use to make money online and offline for themselves. It involves people becoming resellers in my firm and marketing my 2 products, not as my employees, but as my mentored affiliate marketers. This is a home-based business offer, and this report will describe it, reveal it and even tell the reason for it and the roots of it. I will try to be brief, but it is very important that I get across what is being offered, so read to the end please. I decided to use the free report system to share the mentoring offer. All of my affiliates will have a link of the PDF copy of this report to share with prospects. The simplicity of this system is that ideally, the point is made to prospects and the sale completed in the prospect's mind once this report is read. **You do no heavy selling, the reports sell the project!**

We use 2 Phases in this project. It is legal and not gifting. Everything we do has products. Let me write to you about America for a moment. Things are not what they used to be. Technology has become huge and you becoming more technical is critical for survival in the economy and the society we are in. I teach and train people to get savvy online and technically. America has some real serious financial issues. We have loads of people unemployed unwillingly, but many not willing to work, and they have decided being poor is alright with them. We have more and more people getting paid to not work in America by the government for one reason or another, when there is work to do and jobs to be had, and businesses to be started. Many just prefer to not work. For those that wish to have a job or a business, to pay their own way, **American Payday Services** is an option for you. It is self-employment, but employment nonetheless. It is a solution for people to create personal income and self-support. America used to be more based on free enterprise and still is in many ways and now, with the 2016 elections, it is heading that way again. Free enterprise has truly made America a great

nation. We chose the name, **American Payday Services** to bring American people back into the work force, to give people a fighting chance, and to allow people to work. The Bible says, "***If anyone will not work, neither should he eat.***" **2 Thessalonians 3:10** That may seem harsh in this politically correct society, but if that had been enforced decades ago, for able bodied people, many more people would have by necessity chosen themselves to work. So that verse above as stated by God was actually a cure for the sin of laziness. Cures are not always pleasant, but they do help people in the long run. God has every one's best interest at heart when He says that. Don't take me wrong, I see some reasons that the government would support certain people, but not just because they desire it. There should be much more valid reasons than that. This can begin a hornet's nest of discussion, but I only shared my opinion on that touchy subject to bring to my readers an awareness of the importance of hard work in both the lives of individuals and of the corporate whole of society. **American Payday Services** gives people an opportunity to work, and ultimately, **APS** will help to improve society. We feel when a solution is created for people, it is often a God thing. I have a heart for the elderly as many would like to do something but don't know what to do. Here is an option for retired people to supplement their SSI checks.

That being said, the activity I am suggesting to market my products is not that hard of work. Instead, it will really just take diligence and tenacity and some strategic positioning. With those qualities and some patience, one can build into an income of several hundred a month, a week, or even per day. It is basically sales, or even just good marketing. But you do not need to ask relatives, or friends, as we train you to market online or offline to people you have never meet. All you need to do is to share our web page with your own **click-through** links of my JV Zoo products, or, share this report, or use a blog or a splash page. We show you different ways to market our system. You can print out the PDF report here and share it, or put it in a binding and show it, or you can attach it to an email, or you can fix it on a blog or webpage. You can use a business card, post card or flier to bring people to this free report and then have them request the next step from you. You can make it automatic with autoresponders or have a 2-step system whereby you send them your links once they request it. Our program is meant to be run as a home-based business. You work for yourself and have no boss, and you build as fast or as slow as you want. Home based businesses are popular and the statistics are going through the roof on people who are launching them. If you are limited as you how much you can make due to certain rules, you can limit this to part time too.

Our goal for you is to get you to \$100 or more daily income with our system. We also have a higher product for \$295 hat you can upgrade to. With new sales and people always upgrading from past sales, you get frequent transactions!

I have set this up to give people quick incomes. Earning \$400 to \$1000 weekly will not be rare, but very doable. At first, the amount will be smaller, such as \$100 to \$200 weekly, but as you persist and continue to follow the steps and the pattern we have laid out, your income will grow tremendously. You create your own raises by upgrading to the next product in line and referring more people. Everyone who buys our first entry \$139.95 product from you will be encouraged to upgrade too and they buy it from you, as long as you have purchased it too.

I am a former sales trainer, an online marketer and an Internet marketing mentor and teacher and ordained minister in the Christian faith. I try to lace every product with Biblical wisdom in the fabric of it. Every product is also quite motivating. American Payday Services is made up of 2 separate products I offer, and in them, I gradually share how to build a business for yourself. You hear from me every week with helps, in addition to back office helps too. The prices are set up and the strategy is set up to get marketers quickly earning up to at least \$100 daily and even \$200 daily once it is up and running for them. That is \$3000 per month to \$6000 monthly. (\$100 a day x 30 days = \$3000, \$200 a day x 30 days = \$6000 monthly.) This becomes our **American "Weekly" Payday. APS – American Payday Services**, we serve you a weekly payday. Later, you get a daily payday from us.

You can begin, as we said, **for \$139.95** and we pay out 65% of that for a commission of \$90 commissions. **In this product, we introduce you to the basics of obtaining precious metals and real estate investing. Also shared is using traffic exchanges, solo ads and safelists.** What if you ran with this **\$139.95** offer and sold several weekly? It is possible with our mentoring and mass media marketing. **The next product is a \$295 purchase. When you sell that for us, we pay you 70% commissions which is \$206.** Its product is about helping people get funded for their ideals and businesses.

THEN, to start out, you refer this concept by sharing our free report here, AND/OR your links too, and you are just looking for 3 new people to read this report every day, with intent to close 1 of those, and we pay you 65% of the \$139.95 and 70% of the \$295 of the price for any people you refer. When people who bought the lower one upgrade, you get to sell it to them. We give people upon request their money back within 5 days no questions asked.

We help you get going with great mentoring for referrals – all you need to do is what we show you and keep working our system, and stay positive. If you can operate a computer and copy and paste and navigate just a little around online, we give you tools and know-how and we write you ads, we show you where to put them, and we show you free ways to market and paid ways too.

We have set this system up so that you are leveraging up to the higher product with no risk, out of your earnings, so, when you can, you make the jump to the next **Phase Product of \$295, called, MFN Network Funding!** The **\$295 pays 70% or \$206 commissions.** In this product, you are trained and shown how to find clients who wish to get funded for their innovations, or inventions, and how to go find investors who might help them. You can broker those right through MFN Network and us for huge fees.

Special Sale: You can get both product Phases for the higher purchase made first, for **\$295**. The lower product is found in that product's back office. Buy the big product and get the \$139.95 one free! You then are free to market both links in a single offering. Or, just buy one product at a time, and work upward from your earnings. It's your choice.

Further Sale: Buy any of the products and get the PDF online copy of my fiction thriller novel **Hungry Nation**, normally \$16.95 in paperback.

The products I mentor you in are:

Precious Metals Acquisition and Real Estate Investment & Flipping: \$139.95 – pays \$90 commissions. (Property Selection, Buying & Flipping)

Funding Broker Mentoring and Affiliation: \$295 – pays \$206 commissions. (Another potentially huge income springs out of this one)

Here are some extra things you must know. We use JV Zoo as our processor. They are popular and highly credible. I pay you your commissions on or close to the 6th day after the sales. (after guarantee runs out) We pay you at PayPal. All Phases of products are in webpage back offices. JV Zoo gives you a 1099 tax form if you are a U.S. citizen, if you earn over \$600 in a year from Jan 1 to Dec. 31. Your status with us is affiliate reseller. You must buy every phase to market that phase, and be paid up for both of them, to get pay for reselling them. All products are online. Each product is a separate product but they are all designed to fit together and leverage on one another.

Back to the Philosophy:

Many are out of work in America. Other countries are also in dire need of increased employment opportunities. People need a project of substance to work on. People need to get to work, and, they need a pay day. The median household income in America in 2014 was \$50,502. That is not a luxurious lifestyle, but a moderate one. But many would give their right arm for that much per year. We have designed **American Payday Services**, to exceed that, if the person follows our blueprint, **buys and markets** every product, and will not quit, but stays on board and gets the learning curve down and in their thinking processes, and stays in a strong mentoring relationship with me, Greg Nichols. There is much money to be made over many years. This project will not oversaturate in the marketplace, because it can be sold online and offline, and it is mentoring and training, which is highly needed. There are always new people coming

online constantly who need mentoring. We are not an MLM. We are a simple single level reseller program and we market training and mentoring in motivational success and Biblical wisdom. It is all legal, and it is neat and clean. We do not have fancy sites and "grab you" graphics, but we do have a system that works, and our people work, and we diligently operate this. Go find all the fancy looking programs you want, but do they work, and has someone put them together to get you an **American Payday** of enough money to help your budget, and maintain or increase your lifestyle drastically?

Americans need to care a little more about their government's politics that are setting the standards that we live by. America needs private citizens to carry free enterprise to new levels, and the public needs to wake up and see that the gift of freedom and free enterprise is not something to pilfer away while we sleep and do not pay attention to what is going on. We need less government and more business. See principles and sound government and Biblical wisdom in my Christian novel, **Hungry Nation** at **hungrynation.net**.

Hopefully, **American Payday Services** can address this need of real wisdom by educating the public and giving them tools to be productive economic citizens. Many Americans are like lobsters gradually boiling in a pot. They never know when the heat gets lethal. Americans are moving daily in the status quo, boiling, depending on their government, until the problems created cooks them in their own juices of complacency. We either become economically active and outspoken about freedom and free enterprise or we become worker thralls who all make the same low wages on community farms or factories, government owned, and all exist without freedom and co-exist in some dreary socialistic and supposed utopian society. In this writer's opinion, that is evil. A controlling "police state" form of government always accompanies this economic system to keep down dissidents who miss freedom and the state has little regard for the rights or the lives of the individual. This is what history has taught us. Hitler began with socialism which was highly applauded by the masses, as an answer to hard economic times, until finally, Germany was in literal ruins, a pile of rubble. This is what liberals have in store for us, and we rush ahead into it like cattle going over a cliff following the lead cow. I heard a great man say once, "If you are not the lead dog, the view never changes." Step out with me today, share this report, and be a voice of freedom, become the lead dog, and watch your view get better.
