Incredible Technology Investing Opportunities For Your Retirement

A life changing and once in a lifetime industry is opening and investors will make millions, and small-time retirement investors like us will do very well, some making thousands of percent returns. What if you could have put \$1000 or even \$500 into Microsoft or Apple or Amazon or any of the giants? Some new giants are arising. You may have heard about this already, but if not, sit back and buckle in for the ride. I understand that 2018 and 2019 investors will be right in the pre-shift and sky rocking stocks. This coming trend has been called, **“The Internet of Things.”** AKA, IoT.

The Internet of Things (IoT) is the internetworking of physical devices, vehicles (also referred to as "connected devices" and "smart devices"), buildings and other items—embedded with electronics, software, sensors, actuators, and network connectivity that enable these objects to collect and exchange data.

These smart devices will be sold according to estimates in the range of 50 million. They will be in every household. They will be more plentiful than cell phones.

Here is a size of some of these devices. Who is making them? What will drive the need for them? I want you to hear from Paul **Mampilly**, a stock guru, on this subject. You at your own option may wish to subscribe to Paul’s service. I

recommend it, when you are ready. Hopefully, profits from my affiliate program will provide money to follow these people, as well as using the funds to follow their investing leads. Go to this video link now:

<https://pro.banyanhill.com/p/PRLBAM/WPRLU308/?h=true#>

I am also sharing a more generic study of the **Internet of Things** so you don't think Paul and I are making this up. It is very real and coming.

Here is what **American Payday and MFN Network**, my firm, can do for you. As you market my firm's products, and earn **\$446, \$206 and \$64** commissions, you will have funds to make the investments that create forever dividends for your future and your retirement. Then, you will have like-minded, soon to be retiring people like yourself to be in networking with who you can draw help from and help them back, and, learn from them and compare notes.

God bless,

Greg Nichols
